EDUCATION

Columbia University, Columbia College New York, NY
B.A. in Human Rights (Specialization in Women and Gender Studies) – GPA: 3.970, **Cum Laude** May 2022 – May 2023
Thesis: *The Fairness Fallacy: Northpointe and the COMPAS Recidivism Prediction Algorithm* ([DOI](#), Advisor: Dr. Tracy Holland)
Columbia University, Fu Foundation School of Engineering and Applied Science New York, NY
B.S. in Computer Science (Applications Track) – GPA: 3.791 Aug 2018 – May 2022

CLEARANCE

Top Secret Security Clearance – US Citizen Jan 2025 – Present

SKILLS

Languages: Java, Python, JavaScript, C++, Bash, XML/XSD, YAML, JSON/JSON Schema, PromQL, FluxQL, LogQL
Tools/Frameworks: Spring Boot/Spring Applications, REST, Swagger/OpenAPI, MongoDB, Drools, Kafka, GeoServer
Testing: Micrometer, Prometheus, InfluxDB, Loki, Grafana Dashboards, Grafana Alerts, Pytest, Junit, Debugging Tools
DevSecOps Tools: Gitlab CI/CD, Docker, Docker Compose, Kubernetes, ArgoCD, SonarQube, JFrog Artifactory, Git
Other: English (Fluent), French (Limited Working Proficiency), Technology Ethics, Technical Writing, Public Speaking

WORK EXPERIENCE

Raytheon BBN Technologies (Research Engineer II, Full-Stack Developer) Jun 2023 – Present

Software Development

- Maintain **Top Secret** security clearance and ensure federal security protocol compliance for large-scale, **cloud-native** applications.
- Led the maintenance and expansion of automated integration testing and observability for seven **Kafka-based microservices**.
- Enhanced a **Dockerized Java Spring Boot microservice** responsible for processing high-volume **XML** messages through **Kafka**.
- Integrated **Drools** rule-engine workflows, **REST APIs**, and **GeoServer** data to support real-time alerts and automated responses.
- Collaborate with a large, distributed team of domain experts from across the defense industry with diverse priorities and time zones.
- Led Technical Exchange Meetings (TEMs) on subject matter expertise with external teams and non-technical subject matter experts.

Site Reliability Engineering (SRE) Observability & Testing

- Built **Grafana** dashboards for real-time monitoring of system metrics via **Prometheus** and automated test reporting via **InfluxDB**.
- Founded/led weekly cross-team testing meetings to increase collaboration within a distributed **Agile/Scrum** development team.
- Expanded and maintained a comprehensive suite of automated **Python** integration tests using **Pytest** for seven microservices.

Other Roles

- Supported a foundational research project for automated decision makers as the *Ethical Legal and Social Implications (ELSI) Liaison*.
- Represent BBN Technologies at customer facing planning and maintenance workshops.
- Contributed to government-funded project proposals and conference publications.

Amazon Prime Video (Software Development Engineering Intern) May 2022 – Aug 2022

SDE Intern at Amazon Prime Video who developed a proof-of-concept promotional content carousel page using **Kotlin** and **Java**.

Columbia University Makerspace (Volunteer Staff Member) Apr 2022 – May 2023

Designed and led workshops, led equipment trainings, held open hours, and supervised members in the [Columbia Makerspace](#).

Columbia Engineering (Teaching Assistant) Aug 2022 – Dec 2022

Assisted faculty and held office hours for *COMS 3410: Computers and Society*, topics of social and technology ethics.

InspirIT AI (Course Instructor) Jun 2021 – May 2023

Instructor for online courses teaching **AI/ML/NLP** to young students; led development integrated **technology ethics** course materials.

AWARDS & RECOGNITIONS

Columbia Institute for the Study of Human Rights (ISHR) – [Undergraduate Faculty Choice Thesis](#) 2023
Columbia University – SEAS-CC 4-1 Program Selectee 2022
Columbia University – The Beesen Global Experience Research Fellowship 2019
Nevada Volunteers & Brian Sandoval – Nevada Governor's Volunteer Recognition Award 2017

PUBLICATIONS
