Sedona Thomas
snt2127@columbia.edu

Dear Sedona,

I am pleased to tentatively admit you to Columbia College and the 4-1 program. I look forward to working with you over the next year as you complete your degree at Columbia Engineering and prepare to transition to the College.

As part of the 4-1 program, you must complete the Columbia College Core Curriculum; at this point, the only requirement remaining is:

- Swim Test

For your SEAS degree in COMS, you are required to meet with your faculty and CSA advisors in Fall 2021 to confirm that you are on track for May 2022 graduation. It is your responsibility to document any changes in the plan included in your application with me in the Center for Student Advising and your advisor in the COMS Department.

For your Columbia College major in Human Rights, we have documentation from Prof. Inga Winkler confirming that you will be able to complete the courses required for the major. Again, it is your responsibility to document any changes in the plan included in your application with me in the Center for Student Advising and Prof. Winkler.

Please note that to receive your Columbia College BA, you must complete a minimum of 31 credits during your fifth year, even if this is in excess of the coursework you need to complete your Human Rights major.

Please contact me if you have questions.

Sincerely,

Nancy J. Workman
Advising Dean
